

## **MAILNUT™ MAGNET SAFETY INFORMATION PLEASE READ...**

**...The NEODYMIUM MAGNET inside your MAILNUT™ is VERY STRONG and MUST BE HANDLED WITH CARE**

Caution must be taken to avoid personal injury against fingers and other body parts when the magnet pulls towards metal objects and/or other magnets. **MAILNUT™ MODEL 3X DO NOT REMOVE Protective Magnet Plastic Cover.**

Neodymium magnets can shatter, break, or peel if dropped or slammed against other magnets. Shattering magnets could result in eye injury and eye protection should be worn.

Strong magnetic fields can also damage floppy disks, credit cards, magnetic ID cards, cassette tapes, video tapes, and other magnetic devices.

DO NOT place neodymium magnets near any electronic devices, pace makers, hearing aids or similar medical devices.

Children should not be allowed to handle Neodymium magnets as they can be dangerous. Magnets may pose a choking hazard and should never be swallowed or inserted into any part of the body.

Neodymium magnets are brittle subject to chipping or cracking. Do not attempt to machine, cut, break or alter in any way.

Never burn or allow Neodymium magnet temperature to exceed 175 degrees Fahrenheit or 80 degrees Celsius. Burning will create toxic fumes.

PLEASE HANDLE WITH CARE and enjoy the benefits and conveniences associated with your MAILNUT™ product.
